

## WOODPECKER

Rougher bits  
with chip breaker  
for solid wood

PCD rougher bit with chip breaker.  
Suitable for machining along / across  
the grain of solid wood and roughing of  
chipboard.

Thanks to the special cutting geometry  
allows high feed speed and long life  
tools.

Shear reduced to increase the saving  
energy.

Considerable reduction of noise  
in the work environment and the  
electrospindle-stress.
